

# Vericon Resources

## A Global Leader in Background Screening Services

Vericon provides background screening services to small – large corporations throughout the world. In 1988, Vericon was one of the first companies to develop and own its user-friendly, web-based software applications for clients. In a very competitive marketplace, Vericon continues to be successful by focusing on customer service, customization, and utilization of the best technology in the industry. Vericon is not only a “Smart Company Investment” for its clients, but years of industry experience along with a solid business model has set Vericon far above the competition.

### Why Vericon?

Vericon was established as a direct result of an overwhelming need for a reliable, efficient, customer service focused background screening company in the marketplace. Companies turn to Vericon when confidential information in a customized format is needed for their hiring process. Customers also come to Vericon expecting to form trusting and loyal client partnerships.

### What We Have Done?

Vericon has developed proprietary software web-based applications such as FactsTrack Online, eEmployMe, and DirectCheck that offer clients 24/7 access to reporting results and candidates the ability to submit application information. Vericon remains an industry trend setter and has been profiled in several reputable publications over the years including: The Wall Street Journal, Entrepreneur Magazine, Executive Woman, Security Management, The Atlanta Business Chronicle and The Atlanta Journal-Constitution.
